

The team at ZHA worked on our behalf to assess hurricane damage at more than 20 schools in Martin County. Once the assessments were completed, ZHA assisted us in implementing the repairs through design and construction. ZHA also provided assistance in interfacing with FEMA to maximize the funds that were available through the FEMA system. ZHA's assistance in the application process with FEMA for obtaining funding for the repair of facilities was invaluable. ZHA met all these challenges with prompt and professional services. Their quick and accurate response to the demands of the crisis situation enabled us to move forward and achieve our goals to get and keep the schools open as quickly as possible.

Julie L. Sessa, Director of Facilities & Planning  
The School Board of Martin County, Florida

A series of several parallel white lines of varying lengths and thicknesses, slanted diagonally from the bottom right towards the top right of the page.
