

ZHA has provided Orange County Public Schools (OCPS) with Owner Representative and/or Program Management services on our \$500+ million "Existing Schools Capital Improvement Program" for more than three (3) years. This program was undertaken to correct the most critical, deferred maintenance issues at approximately 130 schools; to renovate/ remodel six (6) of our oldest schools to make them more equitable to newer schools; and to reduce the number of portables in the district by replacing them at approximately 20 schools with component building systems that have a 50-year life expectancy. ZHA was initially brought on board as an extension of the Owner's staff to assist OCPS with the start-up of this program. The district subsequently selected the ZHA team to provide Program Management services to ensure skilled and experienced individuals would manage this very large, very complex program.

ZHA has consistently provided individuals, with excellent skills and abilities, specific to their assignments, who have performed with professionalism and expertise. Tasks performed for OCPS included the following:

- Program Oversight
- Design Management
- Construction Field Observation/ Management
- Agreements/ Contract Coordination/ Management
- Budget and Schedule Management/ Reporting

Negotiations are currently underway to extend ZHA's Program Management services for another year.

I am very pleased to recommend ZHA to any Owner in need of Facilities Condition Assessments, Planning/Programming Support, Design Management, and/or Construction Management. My experience with ZHA has been a pleasure.

Claudia J. Haskins, Facilities Director – Design & Construction
Orange County Public Schools

The ZHA logo consists of the letters "ZHA" in a bold, white, sans-serif font. The letters are positioned above a horizontal white line that is slightly longer than the text. The logo is set against a dark purple background.
